

## Pro-Master<sup>†</sup> - Polyester Twisted 3-Strand

A firm, balanced three strand construction with superior hand and lock-grip holding capability. This product offers flexibility but keeps its shape - even with heavy use. The combination of spun and filament polyester creates a rope with low stretch and excellent knot-holding capability. The construction's firmness virtually eliminates the hockling tendency of standard lay three-strand ropes even in long, continuous lengths.

### Features

- Excellent knot-holding
- Remains firm and round even with heavy use
- Remains flexible with use
- Soft hand
- Excellent lock-grip holding capability
- Minimal UV degradation
- Easy to splice

### Applications

- Climbing nets
- Adventure parks
- Rigging Lines
- Hand Lines
- Rodeo/Rigging/Utility
