Barry Drone/UAV Longlines

Product code : **see product code list**

DESCRIPTION

Barry offers a range of textile products specifically designed towards the Drone / Unmanned Aerial Vehicle (UAV) industry for both civil and military applications. Working with leading defense agencies, operators and manufacturers, our products and knowledge are constantly evolving to improve the safety and security of people and assets. These products are designed to be lightweight, durable, and high-performance for increased payload capability.

Barry drone longline systems provide operators with a lightweight, easy-to-handle, and dependable solution for external load and underslung operations.

System Includes

- Synthetic rope longline made from Dyneema® fiber
- Lightweight termination
- Permanent identification tag
- Certificate of Compliance (CoC)
- Transport and storage bag

PRODUCT CODE LIST (9)

Product code	Length (ft)
