Barry D.E.W. Line® Insulating Safety Net

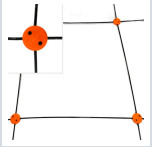

Product code : **see product code list**

DESCRIPTION

This insulating safety net, assembled using our proprietary Barry D.E.W. Line® rope and our specially designed clips, has excellent dielectric properties and is designed to serve as a safety barrier or guard structure which is installed on rider poles or infrastructures for power lines, roads, and railway crossings. It protects and secures apparatus while performing live work under AC or DC condition.

Meets or exceeds the dry or wet electrical requirements of

- IEC 62192:2009
- ASTM F1701-12

Arc-Flash rated

- Resistant to 40 cal/cm^2 (category 4)

Features

- Unique insulating properties
- Cleanable and easy to maintain and test
- Exceptionally low leakage current, whether dry or wet
- Protection from high fault current
- High strength
- Low elongation
- Lightweight and low volume
- Fully sealed and hydrophobic
- Smooth surface
- High abrasion resistance
- Easy to deploy
- Excellent resistance to UV
