Barry D.E.W. Line® Insulating X-Heavy Work Rope

Product code : **HL-ND16K-010**

DESCRIPTION

Insulating work rope tool offering excellent dielectric properties. This tool is designed for performing live work or as a replacement for FRP strain link sticks during temporary installations in energized fields and high voltage systems (AC or DC).

Meets or exceeds the dry or wet electrical requirements of

- IEC 62192:2009
- ASTM F1701-12

Arc-Flash rated

- Resistant to 40 cal/cm2 (category 4)

Flammability Rating

- Conforms to 14 CFR 25.853 Appendix F

Features

- Unique insulating properties
- Cleanable and easy to maintain and test
- Exceptionally low leakage current, whether dry or wet
- Protection from high fault current
- High strength
- Low elongation
- Lightweight and low volume
- Fully sealed and hydrophobic
- Smooth surface
- High abrasion resistance
- Easy to deploy
- Excellent resistance to UV
- Sealed termination with stainless steel thimble (with or without ring) at each end
- Comes with transport bag

TECHNICAL SPECIFICATIONS

Minimum Break Strength*	25 000 lb (11 340 kg)
Working Load Limit	5 000 lb (2 268 kg)
Diameter	5/8” (16 mm)
Terminations	Thimbles (with or without rings)
Colour	Orange w/ yellow terminations
Weight	9 lb (4.1 kg) for 15’ length
Standard Lengths	15’ (4.6 m), 20’ (6.1 m), 25’ (7.6 m) Other lengths available upon request - Min. 8' (2.4 m)

HL-ND16K: Thimble both ends
HL-ND16KR: Thimble + steel ring both ends
