Longline Weighted End-Cover

Product code : **see product code list**

DESCRIPTION

Originally developed by Barry in the early 2000s, this weighted end cover was engineered to improve flight performance and stability when operating a longline without a load.

Barry weighted longline end covers (ballasts) include non-metallic weight strips and are easy to install and remove in the field.

These products are designed specifically for compatibility with Barry general utility longlines, Barry D.E.W. Line® Insulating Dielectric Longlines, and HEC configurations.

Refer to the compatibility matrix below to select the correct configuration for your longline.

Important Note: *Our weighed-end products are only designed and compatible for use with Barry Helicopter Longlines. If you have any questions regarding fit or compatibility, please contact Barry for assistance before ordering.*

Barry Longline Model	Barry Longline WLL	Compatible Kit	Weight (Included)	Material	Colour
BLL-3000 / DLL-3000 BLL-4500 / DLL-4500 BLL-6400 / DLL-6400	3000, 4500, 6400 lb	LLEC-W25NC/L8	25 lb	Cordura	Neon Green
BLL-8300 / DLL-8300	8300 lb	LLEC-W25NC/XL10	25 lb	Urethane	Orange
BLL-8300 / DLL-8300	8300 lb	LLEC-W50NC/XL10	50 lb	Urethane	Orange
