

Longline Protective Zipper Jackets

Product code : LLJZ-14-025

DESCRIPTION

Maximize the durability and efficiency of your helicopter longlines with our **Longline Jackets and Accessories**. Designed as a sacrificial first layer of protection, these products shield your longlines from wear and contamination while simplifying maintenance. Their adaptability ensures seamless integration with various wiring, power, and hose configurations, making them an ideal solution for longlines configured for firefighting buckets and other specialized remote equipment.

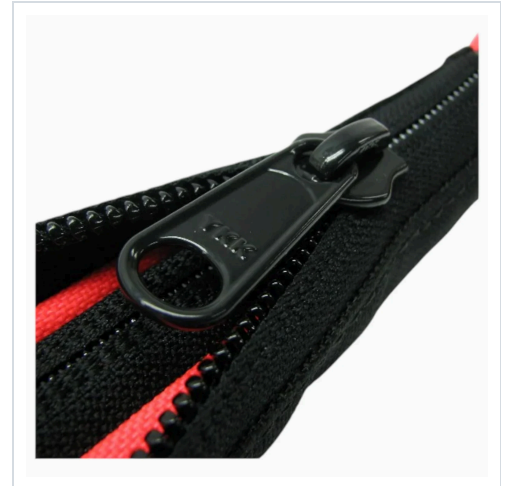

Important Note: Our longline jacket products are only designed and compatible for use with Barry Helicopter Longlines. If you have any questions regarding fit or compatibility, please contact Barry for assistance before ordering.

Product Features

- **Comprehensive Protection:** Acts as a sacrificial layer to protect longlines from UV rays, abrasion, and dirt contamination. Shields your longline system, prolonging its lifespan and maintaining peak performance.
- **Ease of Maintenance:** Single-zipper or dual-zipper designs enable quick and effortless replacement or inspection. Lightweight yet robust materials allow for easy handling and minimal downtime.
- **Customizable and Adaptable:** Tailored for longlines of all size diameters, with options for custom sizing. Adaptable to multiple wiring, power, and hose configurations for use with firefighting buckets and specialized remote equipment. Available in a range of colors, including fluorescent orange, hi-vis green, red, yellow, blue, black, tan, and olive drab.
- **Enhanced Functionality:** Optional inner divider and support tabs to safely separate electrical wires, ensuring clean and organized setups. Hook-and-loop connections at both ends pair seamlessly with Barry's longline end-covers.

Product Variants

- **Single Zipper Longline Jackets:** Durable, single-zipper design for simplified access and enhanced protection.
- **Double-Zipper Longline Jackets:** Dual-zipper design for added protection with simplified access to load-bearing rope during inspections or maintenance. Keeps the longline separated from electrical wire(s), and offers redundancy for added safety.
- **Heavy-Duty Longline Cover:** Designed for extreme conditions and heavy-lift operations, offering superior durability and protection against environmental challenges.

- **External Helix for Vibration Mitigation:** An original Barry design, our spiraling external helix on the outside of the longline jacket is designed to help break up wind flow and mitigate vibration or drag in flight.

Why Choose Barry's Longline Jackets?

By choosing Barry's longline jackets and accessories, you benefit from:

- **Enhanced Durability:** Protect your longlines from environmental and operational wear.
- **Efficiency:** Minimize downtime with quick-access features and easy replacement.
- **Versatility:** Accommodates a variety of configurations for firefighting and specialized equipment.
- **Custom Solutions:** Tailored designs to fit your unique operational requirements.
