

Designed for temporary vertical access, the steel cable ladder is compact and can be used when rigid rail ladders are not practical or could put users or other workers at greater risks.

Rungs options:

Bare aluminum, non-slip knurled or black covered

SPECIFICATIONS

- 5 mm (3/16") galvanized steel cable
- End terminations with steel thimbles on both ends of each steel cable
- Aluminum rungs, 25 mm (1") diameter
- Vertical rung spacing: 30 cm (12")
- Distance between steel cables: 30 cm (12")
(Other dimensions available on request)
- Maximum length: 15 m (50')
- Working load limit: 113 kg (250 lbs) – one person only

ECH-S: Steel Cable ladder with bare aluminum rungs

ECH-S-M: Steel Cable ladder with non-slip knurled rungs

ECH-S-S: Steel Cable ladder with black covered rungs
