

Longline Jacket with Double Zipper

The unique longline jacket with double zipper is the state-of-the-art in the industry.

It combines the advantages of our regular longline jacket with single zipper, offering ease of access to the longline and wire(s) for inspection or replacement, while the double zipper offers added safety through redundancy in case of damage to the jacket while in flight.

Features

- Double zipper closure offers redundancy for added safety
- Easy access to the longline for inspections
- Keeps the longline separated from electrical wire(s)
- Integral connection to the top of the longline for ultimate strength
- Protects the longline from abrasion, UV rays and contamination by dirt

Integral top connection with warning label

Double-zipper closure separates longline from wire

SPECIFICATIONS

- For longlines up to 19 mm (3/4") diameter
- Made of durable nylon fabric and heavy-duty zipper
- Top cinch strap incorporates warning label
- Custom made to closely fit the longline/wire(s) size (Contact Barry to confirm model required)
- Standard color: Fluorescent orange (Also available in regular orange, tan, OD green and black)
